Attached Vignettes 09-19-17 08:27 AM Like 0 MT CONITE, no, I removed the SD card, apparently it is the device that is encrypted see the attached image and can not decrypt the function is attenuated (or grayed if it makes sense). Why do you care if the device is encrypted if you try to wipe anyway? 09-19-17 08:33 AM Like 0 Because I couldn't wipe delete the data was grayed out. But I finally solved the problem by reinstalling the Os with automatic charger. MT for your help 09-19-17 01:56 PM As 0 hello, currently struggling to slide the device, apparently the device is encrypted and I can not decrypt it, causing the function in the encryption menu is not available (mitigated), and I also can't whip via Blackberry desktop software because there are problems connecting with the wire (I tried with another, and on another computer, but doesn't change anything), so I wanted to download the automatic charger, but the link doesn't work there: Download for - BlackBerry Native can someone send me another link or help me in this issue?? Follow this link the automatic charger there for Q10, but it works on all versions, after successfully charging it sign in your BB ID and then update your phone to the latest version.... it works for me too. 06-18-19 05:02 AM Like 0 It's a thread of almost 2 years, and it has been resolved. 06-18-19 08:51 AM Like 0 Blog YouTube Forum Signature Register Login Name Version Windows BlackBerry 10.3.1
